

TARA VINCENT - YEAR 10

What are your aspirations?

As a student, I want to try my best in all of my subjects to achieve marks I am happy with. I want to embrace the opportunities being offered to help me extend myself academically and pursue my passions. Although I do not know what I want to do after school, I know that right now I want to be happy with myself, do what I enjoy and not be afraid to try something new. I will make the most of the career guidance given in Year 10 to help guide my VCE subject choices. In the future I hope to have a career that I enjoy and makes me excited to wake up every day.

What co-curricular activities do you do?

I have been an active member of the Santa Maria community since Year 7 and love all of the co-curricular activities the College has to offer. I am a member of the Santa Maria music program as the current Year 10 Music Captain. I am involved in a number of college bands, such as the concert, stage and symphonic wind bands, as well as the band for the upcoming college production of the Wonderful Wizard of Oz. The music program presents plenty of opportunities for students to perform and enhance their musical abilities at concerts, instrumental soirees and other school events.

I have also been involved in a number of sports teams including the SCSA netball and swimming teams and I am hoping to try out for some other teams this year. Outside of school I have been playing netball for 4 years and am starting football this season.

What do you like most about being a Santa girl?

I love that everyone here is really friendly. It is a very supportive and welcoming community and offers plenty of opportunities to extend yourself in your education and follow your passions. No matter where your interests lie, there are opportunities for you at Santa. I also love that there are also lots of opportunities to make new friends and meet girls in other year levels as well as your own. The Village system helps to foster friendships between year levels, and being involved in inter-school sporting teams, the music program and all of the other clubs and teams also helps you to meet other students and form a wide range of friendships.
