

ELANIE TASSERON – YEAR 7

What are your aspirations?

Since I started at Santa Maria College as a Year 7 student, I have always wanted to be a part of the Santa Maria community as much I could. As I get older, I hope to become more confident with myself and apply for a leadership role so I can help other girls through their own challenges and journey. I would also like participate in as many of the Santa Maria sport teams as I can.

What co-curricular activities do you do?

Being a part of Santa Maria has helped me with my learning and confidence so much. After school I go to Homework Club and they help me with questions or queries I have and are really supportive. I am hoping to trial for netball and football and hopefully get in to help other students participate in sport and activities. I have recently signed up to our school gym and I'm hoping to go as much as I can during the week.

What do you like most about being a Santa girl?

Being a Santa girl makes me feel proud and honoured to be a part of the College. Since transitioning from Primary school to High school, the teachers and students have helped me a lot. Now I feel a lot more confident going into my classes and not giving up the minute I'm stuck. The girls and teachers are supportive and help everyone through their struggles. I love being a part of a kind, caring and helpful environment. Us girls always stay true!
